

GHSS MEDICAL COLLEGE CAMPUS

KOZHIKODE

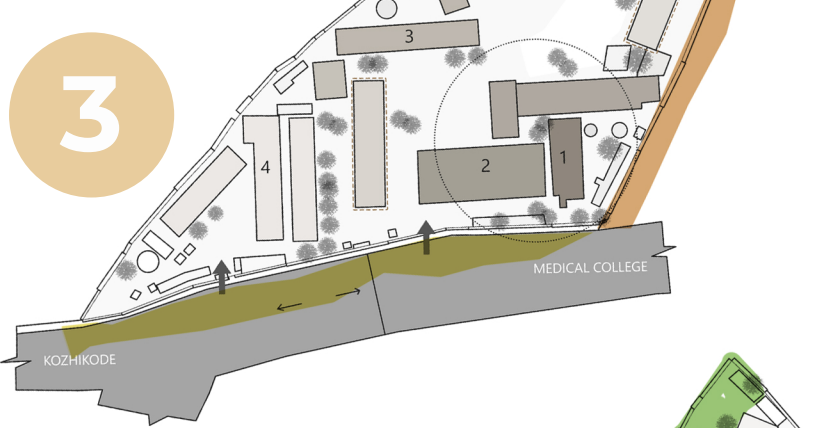

FRONTAGE SPACE

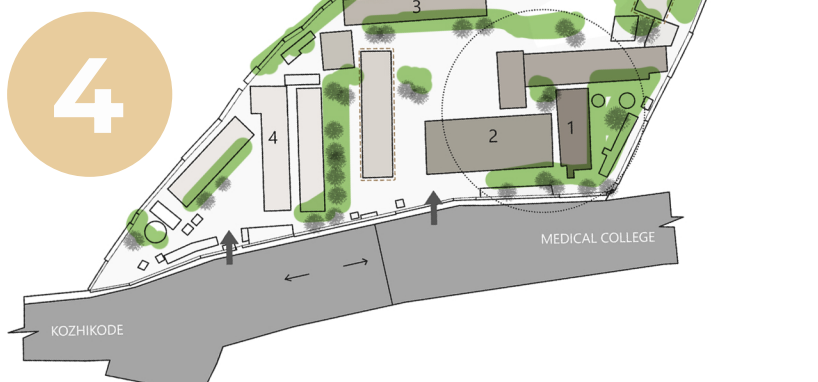

UNUSED SPACES

LACK OF BUFFER ZONES

VEGETATION

Established in 1965 as an independent lower primary. In 1971 and 1981 educational standards to upper primary and high school respectively. By 2000 the institute managed an uplift to emerge as a higher secondary campus with better amenities.

FRONTAGE SPACE

Lack of proper frontage space and Deficiency to accommodate a crowd
Deterioration of built structures

UNUSED SPACES

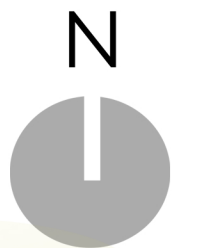

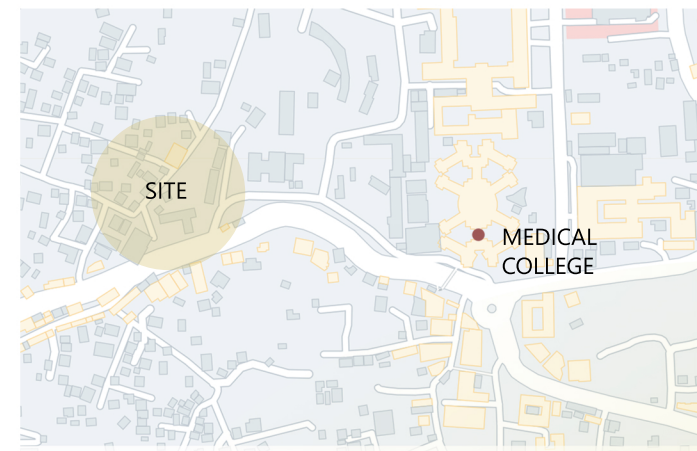

Crampness towards the southern end of the campus
Lack of proper planning in past and Unused spaces are being used as dumpyards.

LACK OF BUFFER ZONES

Barrier of built masses to social interaction
Built masses creating no buffer zones

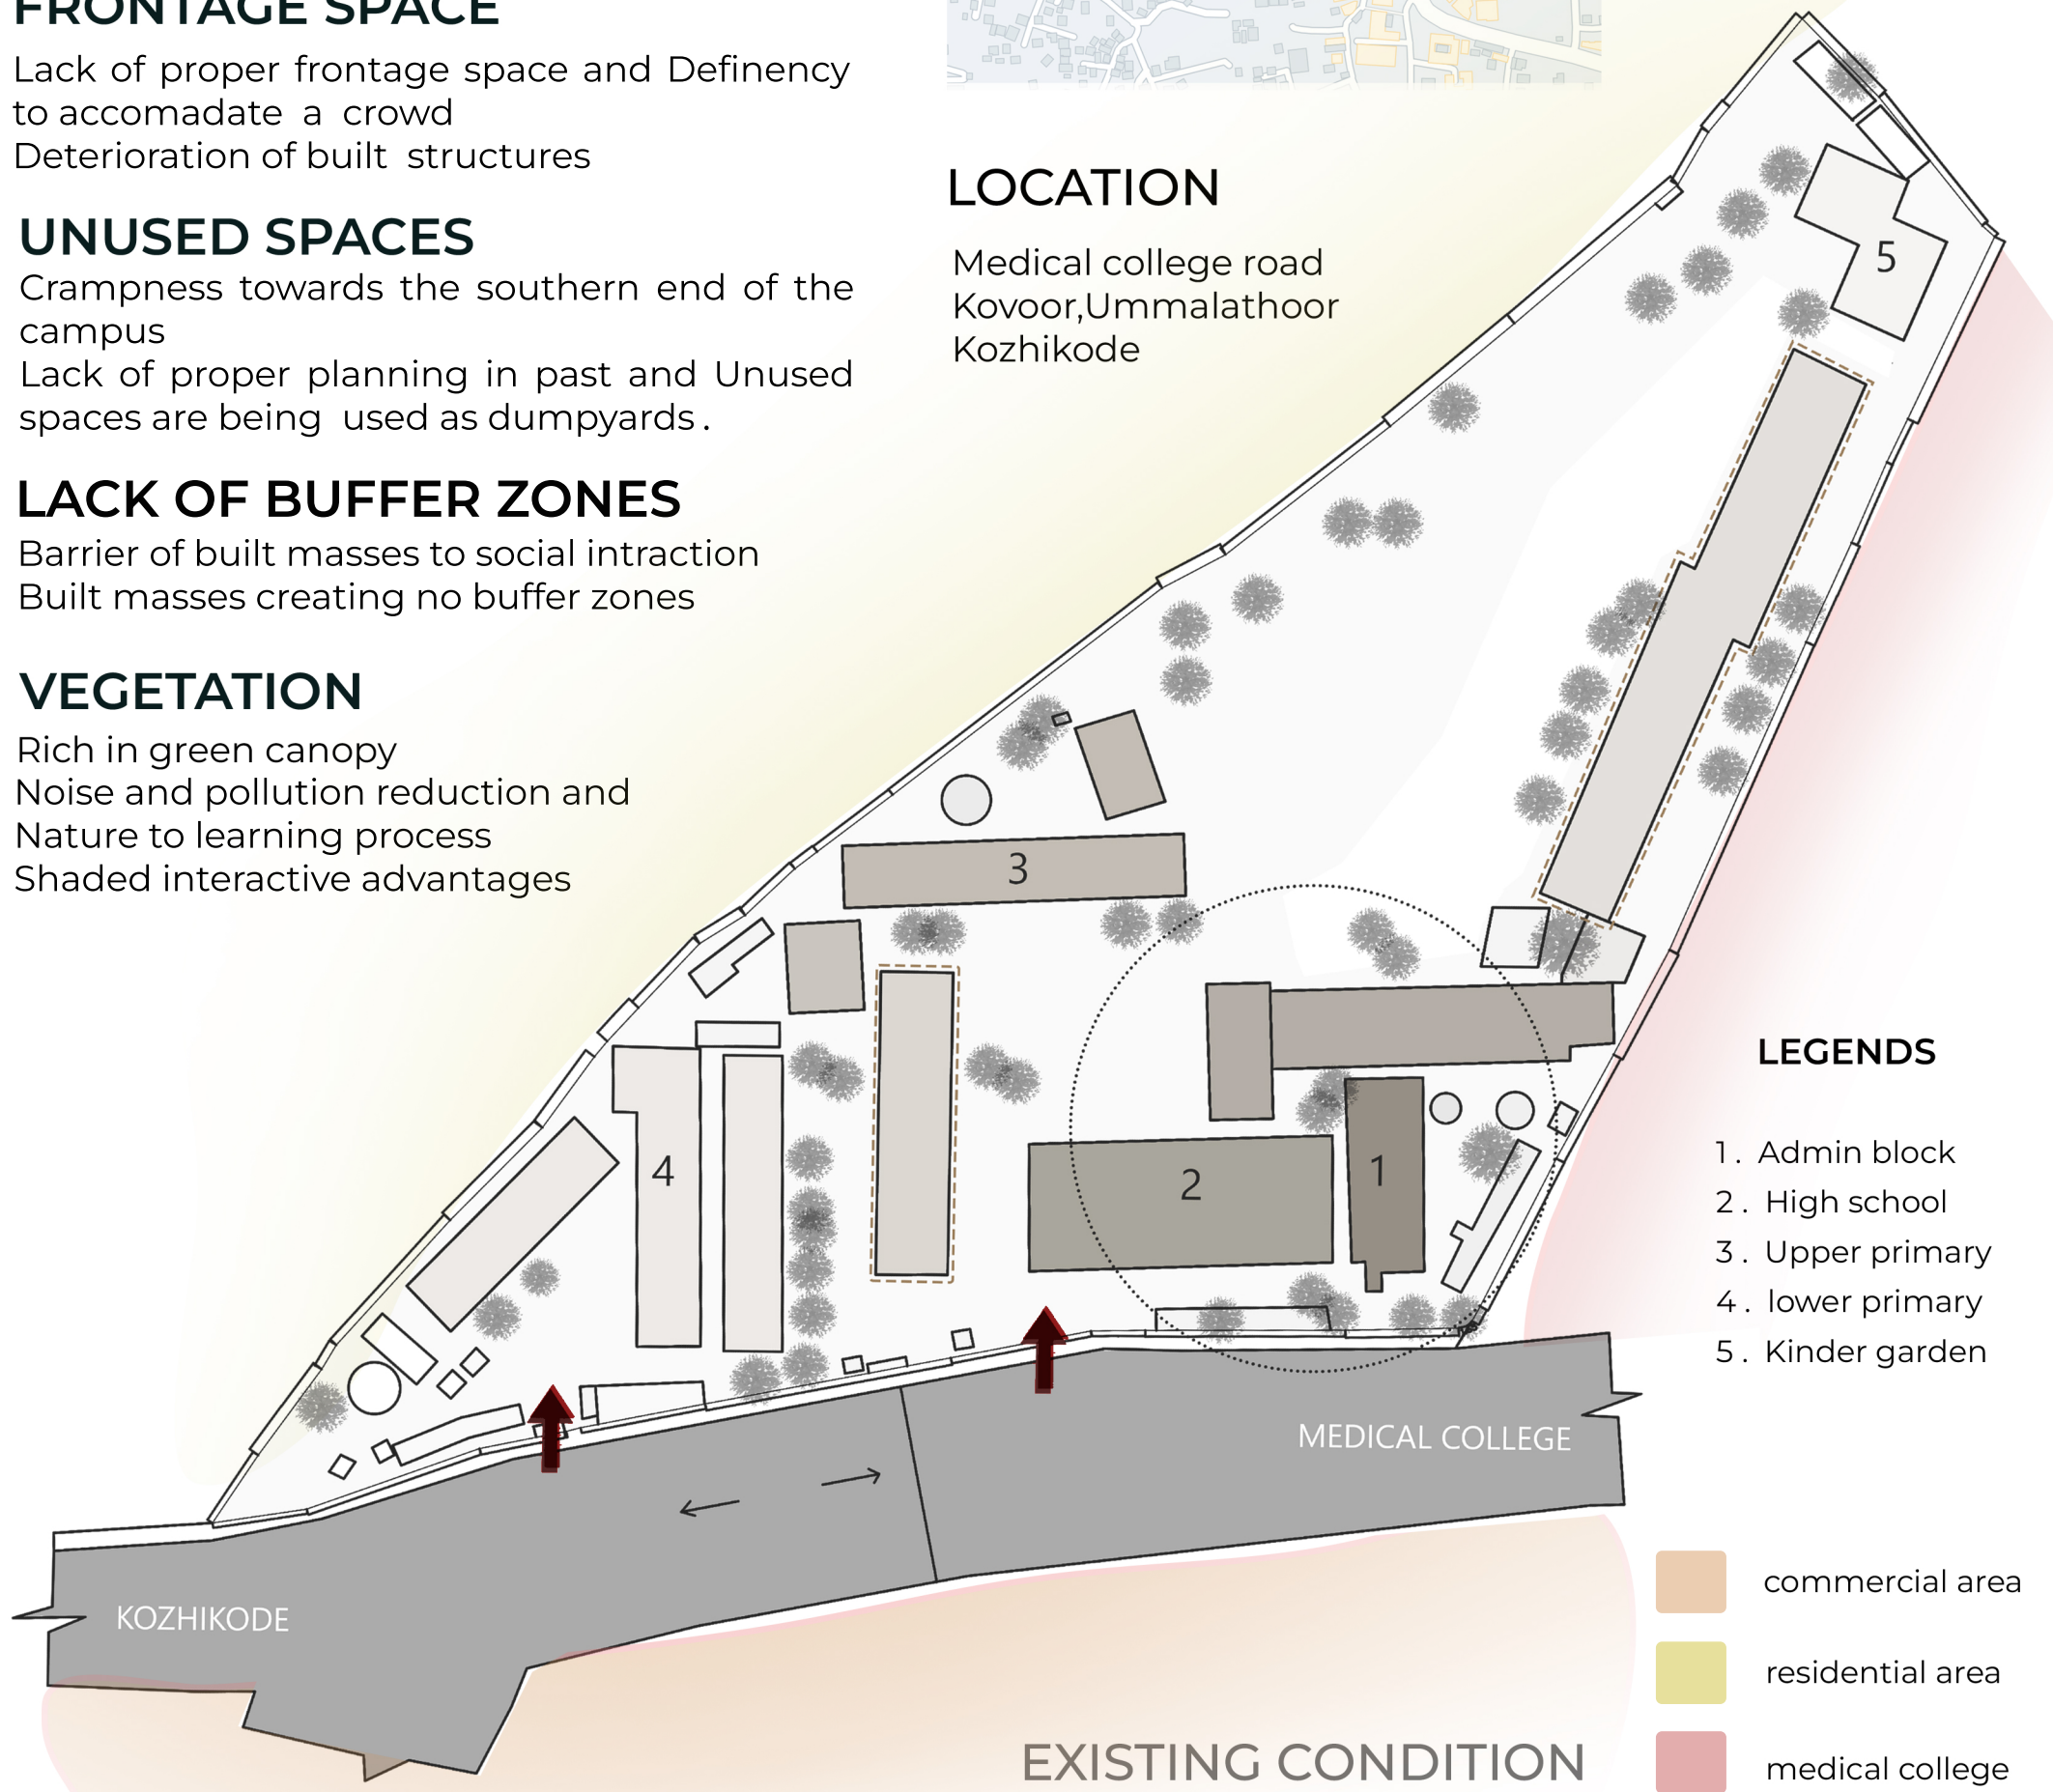

VEGETATION

Rich in green canopy
Noise and pollution reduction and Nature to learning process
Shaded interactive advantages
