

# G H S S MEDICAL COLLEGE CAMPUS

KOZHIKODE

Gallery being a connective intermediate between ground and built mass terrain

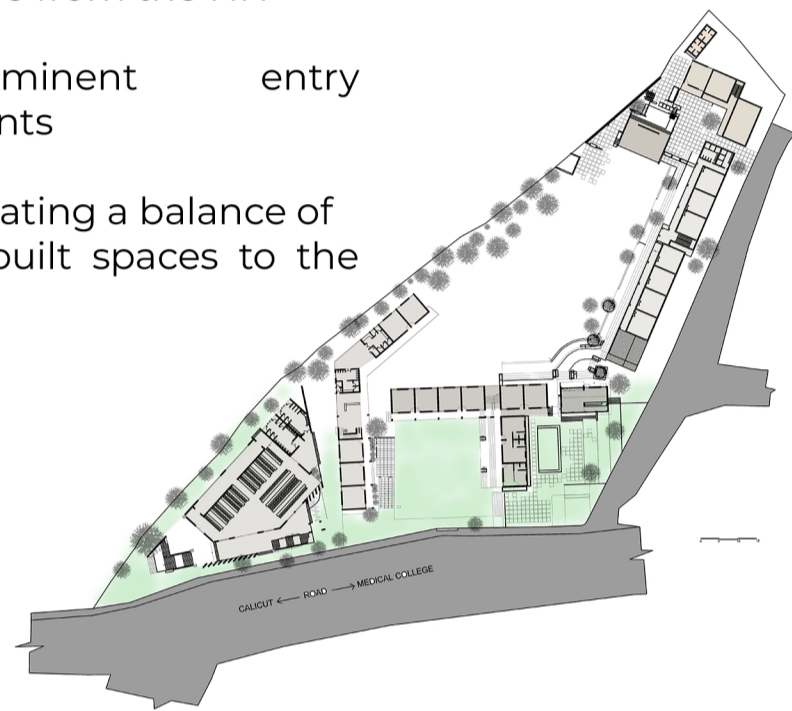

Nature acts as a key element that catalyses the educational process

Creation of a welcoming and greener buffer zone from the NH

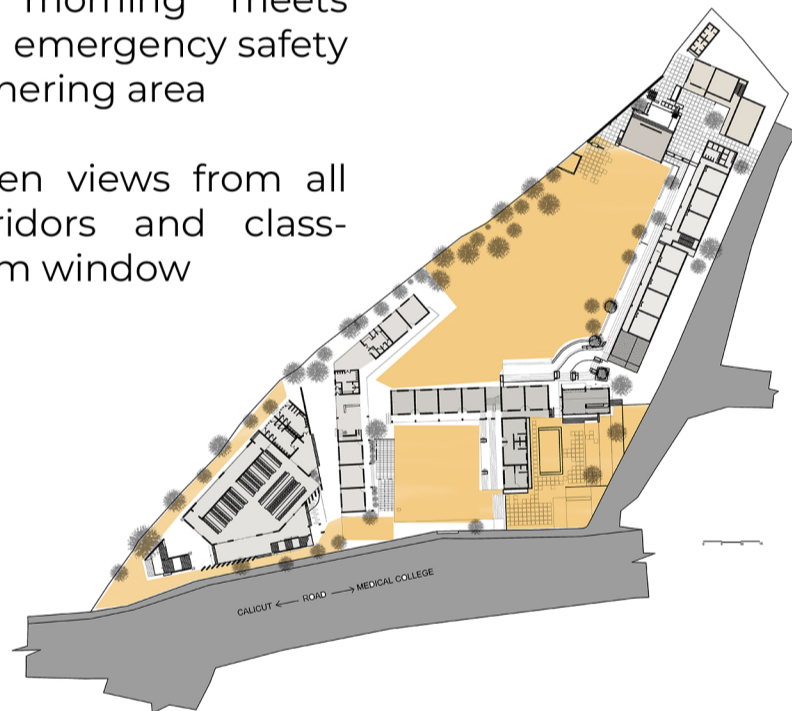

Prominent entry points

Creating a balance of unbuilt spaces to the

Central assembly area for morning meets and emergency safety gathering area

Green views from all corridors and classroom window

**AIM:** To intervene at a masterplan level; to re-organise/re-orient the blocks to create a frontyard space; primarily as a buffer from the main road, and also as a space for gathering, assembly etc;

To generate activities in unused spaces, as an effort to re-claim them.
